

Sign in instructions for those who have selected a Google account/social media service as the sign in method

If you have selected a Google account or a social media service as the Tiimeri sign in method, you should take certain issues into account.

Password

- The password must be strong > The new password must have at least ten characters. It must include uppercase and lowercase letters, and digits and special characters.
- The password must not contain Scandinavian letters.
- We recommend providing all users with information and instructions about this feature and taking it into account in the use of services.

Two-factor authentication

- If you have two-factor authentication (multi-factor authentication, MFA) available, you should use it.
- Instructions: [Two-factor authentication for a Google account](#)

Service production / Tiimeri main users

29.3.2018

Agency users

- Agency users should choose one of the following options to sign into Tiimeri:
 - Office 365
 - Valtti sign in
 - Virtu
